

Can you discover...

... a way to move something without touching it?

... a choice that you can make to conserve resources?

... a way to improve your natural abilities or senses?

... a species of animal that has been affected by pollution?

... an activity that works best with two or more people?

Note to chaperones: *This optional tool is intended to help you engage your students in meaningful interactions while you explore the museum. There is no need to complete these challenges, or to write anything down.*
